

THE 48 HOUR RUN

48 HOURS. ONE PAYING CUSTOMER.

No team. No code. No agency invoice.

While the plan is still in a doc, this one has already sent, built
and closed.

HOUR 1 - 2

FIND THEM.

Forty accounts, ranked before the coffee goes cold.

CORTEX reads the company, the person who signs and the signal that says now, in one pass.

01

Reads the company

sector, size, region, the stack they pay for

02

Finds who signs

what they own and what they posted

03

Ranks the forty

one page, before you open a tab

2H

→ 6H → 24H → 48H

HOUR 3 - 6

REACH THEM.

Every message written on what CORTEX just found.

SPECTER writes the first touch and the follow ups. You approve. Nothing sends without you.

THE TRIGGER

why now, in one line

THE ASK

a question, not a pitch

THE GATE

you approve before it sends

2H -

6H

- 24H -

48H

HOUR 7 - 24

BUILD IT.

The page they land on ships while you sleep.

SENTINEL writes the files, runs the deploy, opens a browser and checks its own work before it calls it done.

WRITES

Files

pages, copy, the form

RUNS

Deploy

shell exec to a live URL

OPENS

Browser

checks the page renders

SHIPS

The PR

branch, commit, opened

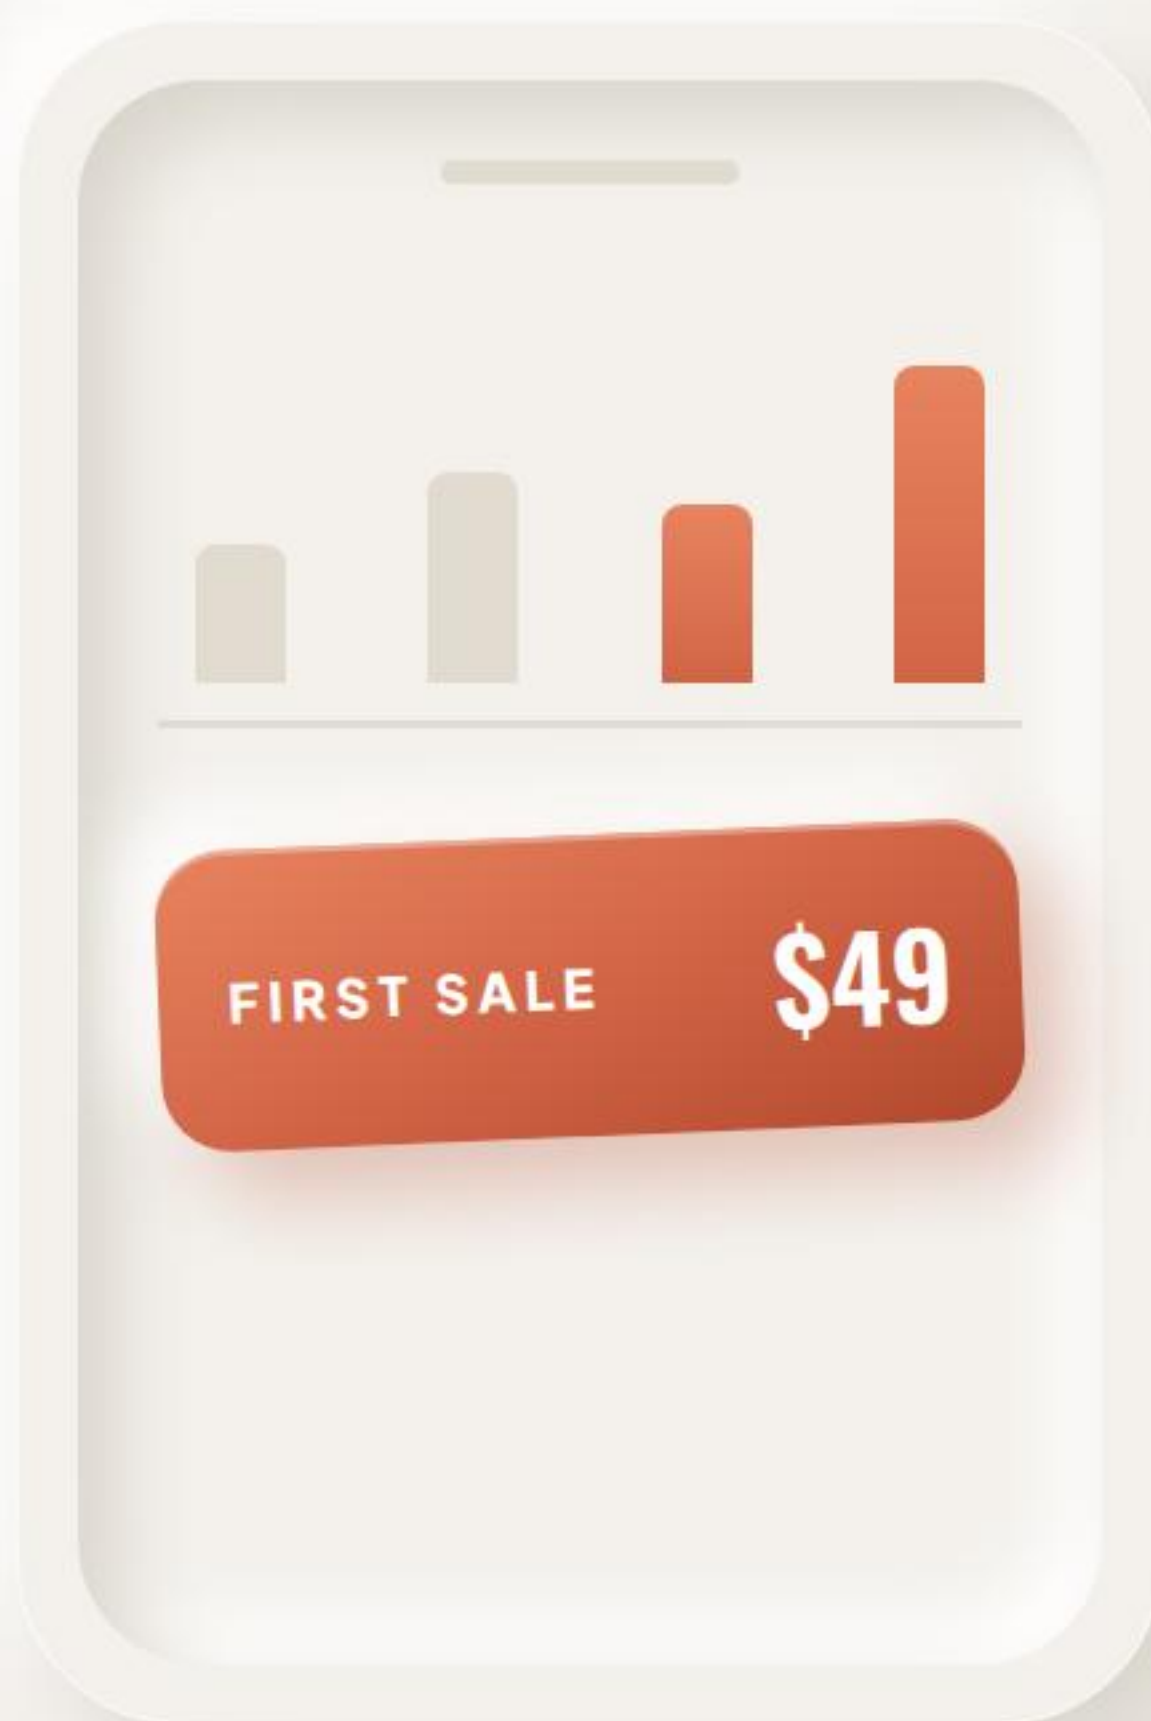

2H - 6H - **24H** - 48H

HOUR 25 - 48

CLOSE THEM.

The objection you were about to walk past,
surfaced.

STRIKER runs qualification, handles the objection and
drafts the close plan. You are the one who says yes.

2H - 6H - 24H - 48H

WHAT ACTUALLY CHANGED

YOU DID NOT WORK **HARDER.**

You ran a team you never hired.

Seven agents, one operator, one gate. The work of a GTM team, and the payroll of none of it.

0

Hires

no roles to define, no onboarding

7

Agents

research, outbound, deals, content, code

1

Operator

you, holding the send button

COMMENT

48H

and I will send you the exact run.

The prompts, the order, and where the human gate sits.
Same system, your next 48 hours.
