

ONE NIGHT

CLOSE THE LAPTOP AT 11. WAKE UP **SHIPPED.**

Your company stops when you stop. It does
not have to.

Eight hours a night you were never going to use anyway.

2 3 : 4 7

ONE LINE BEFORE **BED.**

**Not a spec. Not a ticket. One sentence of
what you want.**

Nobody to brief in the morning, and no standup to book.

TYPE IT

SLEEP

IT RUNS

READ IT

ULTRON · 51ULTRON.COM

02:14

IT DOES THE WORK YOU POSTPONED.

Reading the sources, writing the files, running
the build.

The job you have moved to tomorrow four times, finished
while you sleep.

01

Reads what it needs

sources, and your own past work

02

Writes the files

into the project, not a chat

03

Runs the build

and fixes it when it breaks

ULTRON · 51ULTRON.COM

05:30

IT CHECKS ITS OWN WORK.

Opens what it made and confirms it actually works.

Work you still have to verify is not finished. It is homework with extra steps.

23:47 - 02:14 - 05:30 - 07:02

07:02

YOU WAKE UP TO A **RESULT.**

Three things done, sized and waiting for a yes.

The page live, this week's posts queued, the video cut.

WHAT ACTUALLY CHANGED

THE DAY STOPPED ENDING WHEN **YOU** DID.

You did not find more hours. You stopped
being what they depended on.

The list you never get to is the list that gets done overnight.

COMMENT

NIGHT

and I will send you the overnight setup.

How to brief it at night, and how it verifies before it stops.
