

2-MINUTE OPERATOR GUIDE

MASTER CLAUDE IN 2 MINUTES

Use it like a **thinking partner**, not a search bar. Most people use it like *Google*. That is the problem.

● 4 fixes · 1 input formula · 3 modes

SWIPE FOR THE 2-MINUTE FIX →

Stop asking for **answers**

 MOST PEOPLE

- x Write me a post
- x Summarize this
- x Give me ideas

 BETTER

- ✓ Break this into parts
- ✓ Challenge my assumptions
- ✓ 3 approaches with tradeoffs

→ **Better thinking = better outputs**

Fix these 4 inputs

Most people skip **2 to 4**. That is the problem.

1 Task → what you want

2 Context → what it should know

3 Standard → what good looks like

4 Outcome → what success means

FIX 03

04 / 06

Same task. Different result

WEAK PROMPT

x "Write a post about AI"

✓ STRONG PROMPT

- ✓ Write a short post for founders
- ✓ Explain why most AI content fails
- ✓ Keep it punchy and minimal
- ✓ End with a reflection, not advice

→ Specific in = usable out

Three ways to **open**

Think better FOR DECISIONS

Break this into parts

Challenge my assumptions

Give me 3 approaches

Explain clearly FOR LEARNING

Explain this like I am new

Use one simple example

No jargon

Execute faster FOR ACTION

Create a step-by-step plan

Based on this context

I can use today

Stop searching. Start **thinking**.

Four inputs turn Claude from a search bar into the operator on your team.

01 Give **direction** , not a request for answers

02 Set **task, context, standard, outcome**

03 Pick a mode: **think, explain, execute**

COMMENT **CLAUDE** →

and I will send you the exact 4-input prompt formula.
