THE SHIFT

Saying who is writing stopped being optional.

THE NUMBERS

TWO RULES. ONE OF THEM ALREADY BITES.

The big ceiling is far away. The small one is already enforceable.

EU ceiling,

\$1,000

THE SECOND ONE NEEDS NO REGULATOR

WHY IT MATTERS

In California the person you wrote to can sue you directly.

WHAT TO SET UP

THREE LINES. ABOUT **TEN** MINUTES.

You are not building a legal department. **You are signing your mail.**

1

Say it is a machine

once, at the top, in plain words

2

Say who it works for

a named company with an address

3

Give them a way to reach a person

the part everyone skips

YOU STILL OWN COMPLIANCE. THIS IS THE
IDENTITY PART.

TEN MINUTES

**Then every message you send carries it,
without you.**

WHAT ACTUALLY CHANGED

THE SIGNED ONES GET ANSWERED.

This is the part you would want **even if nobody had written a law.**

can look up

fine. what do you do?

A MESSAGE FROM NOBODY GETS DELETED

THE REAL WIN
