

SAVE THIS CAROUSEL

I scored 58,351 companies on AI-readiness. 408 passed.

An independent index, six dimensions, 0 to 100. Only 0.7% are truly AI-native. Here is where everyone else sits, and the gap that is open.

SWIPE →

Six dimensions, zero to 100.

- **Moat**

A proprietary data advantage.

- **Product**

The product itself is AI-native.

- **Ops**

AI runs the operations.

- **Build**

Ships AI into what it makes.

- **Proof**

Evidence the AI works.

- **Discover**

Found by AI and agents.

Truly AI-native: 0.7%.

Where the 58,351 sit.

1 Absent
121 · 0.2%

2 Aware
4,586 · 7.9%

3 Adopting
23,765 · 40.7%

4 Enabled
29,471 · 50.5%

5 Native
408 · 0.7%

Weakest in the market, shipped by Ultron.

Moat

data flywheel

Market average 47 of 100, the single weakest dimension.

47

Ops

agent-run ops

Market average 52 of 100. Operations are still run by hand.

52

Proof

case-study engine

Market average 52 of 100. No evidence the AI works.

52

Two ways to enter the AI era.

WHERE 99.3% SIT

- No proprietary data moat
- Operations run by humans
- Proof gathered by hand
- Hard for AI to find

WHAT AI-NATIVE LOOKS LIKE

- A proprietary data flywheel
- Agents run the operations
- Proof on autopilot
- Built to be discovered
